

Virtual Care Clinic

WestView Primary Care Network (WVPCN)

The WVPCN offers a Virtual Care Clinic where you can meet with a medical practitioner to receive health care remotely via the internet or phone.

Benefits of Virtual Care

- Accessible from almost anywhere
- Convenient flexible times available
- Reduced stress & risk of exposures
- Preserves your long-term medical history & primary care relationship
- Free (certain documents may cost fees as listed on our website)

What to Expect During a Virtual Care Visit

Download an App or Access Via Web

Connect with medical practitioner via video or phone

Outline your main health concern

Receive a follow up care plan via email

We're connected to your family physician & will coordinate your health care as a team.
